## Revolutionizing Healthcare for Hospitals, Doctors, and Patients

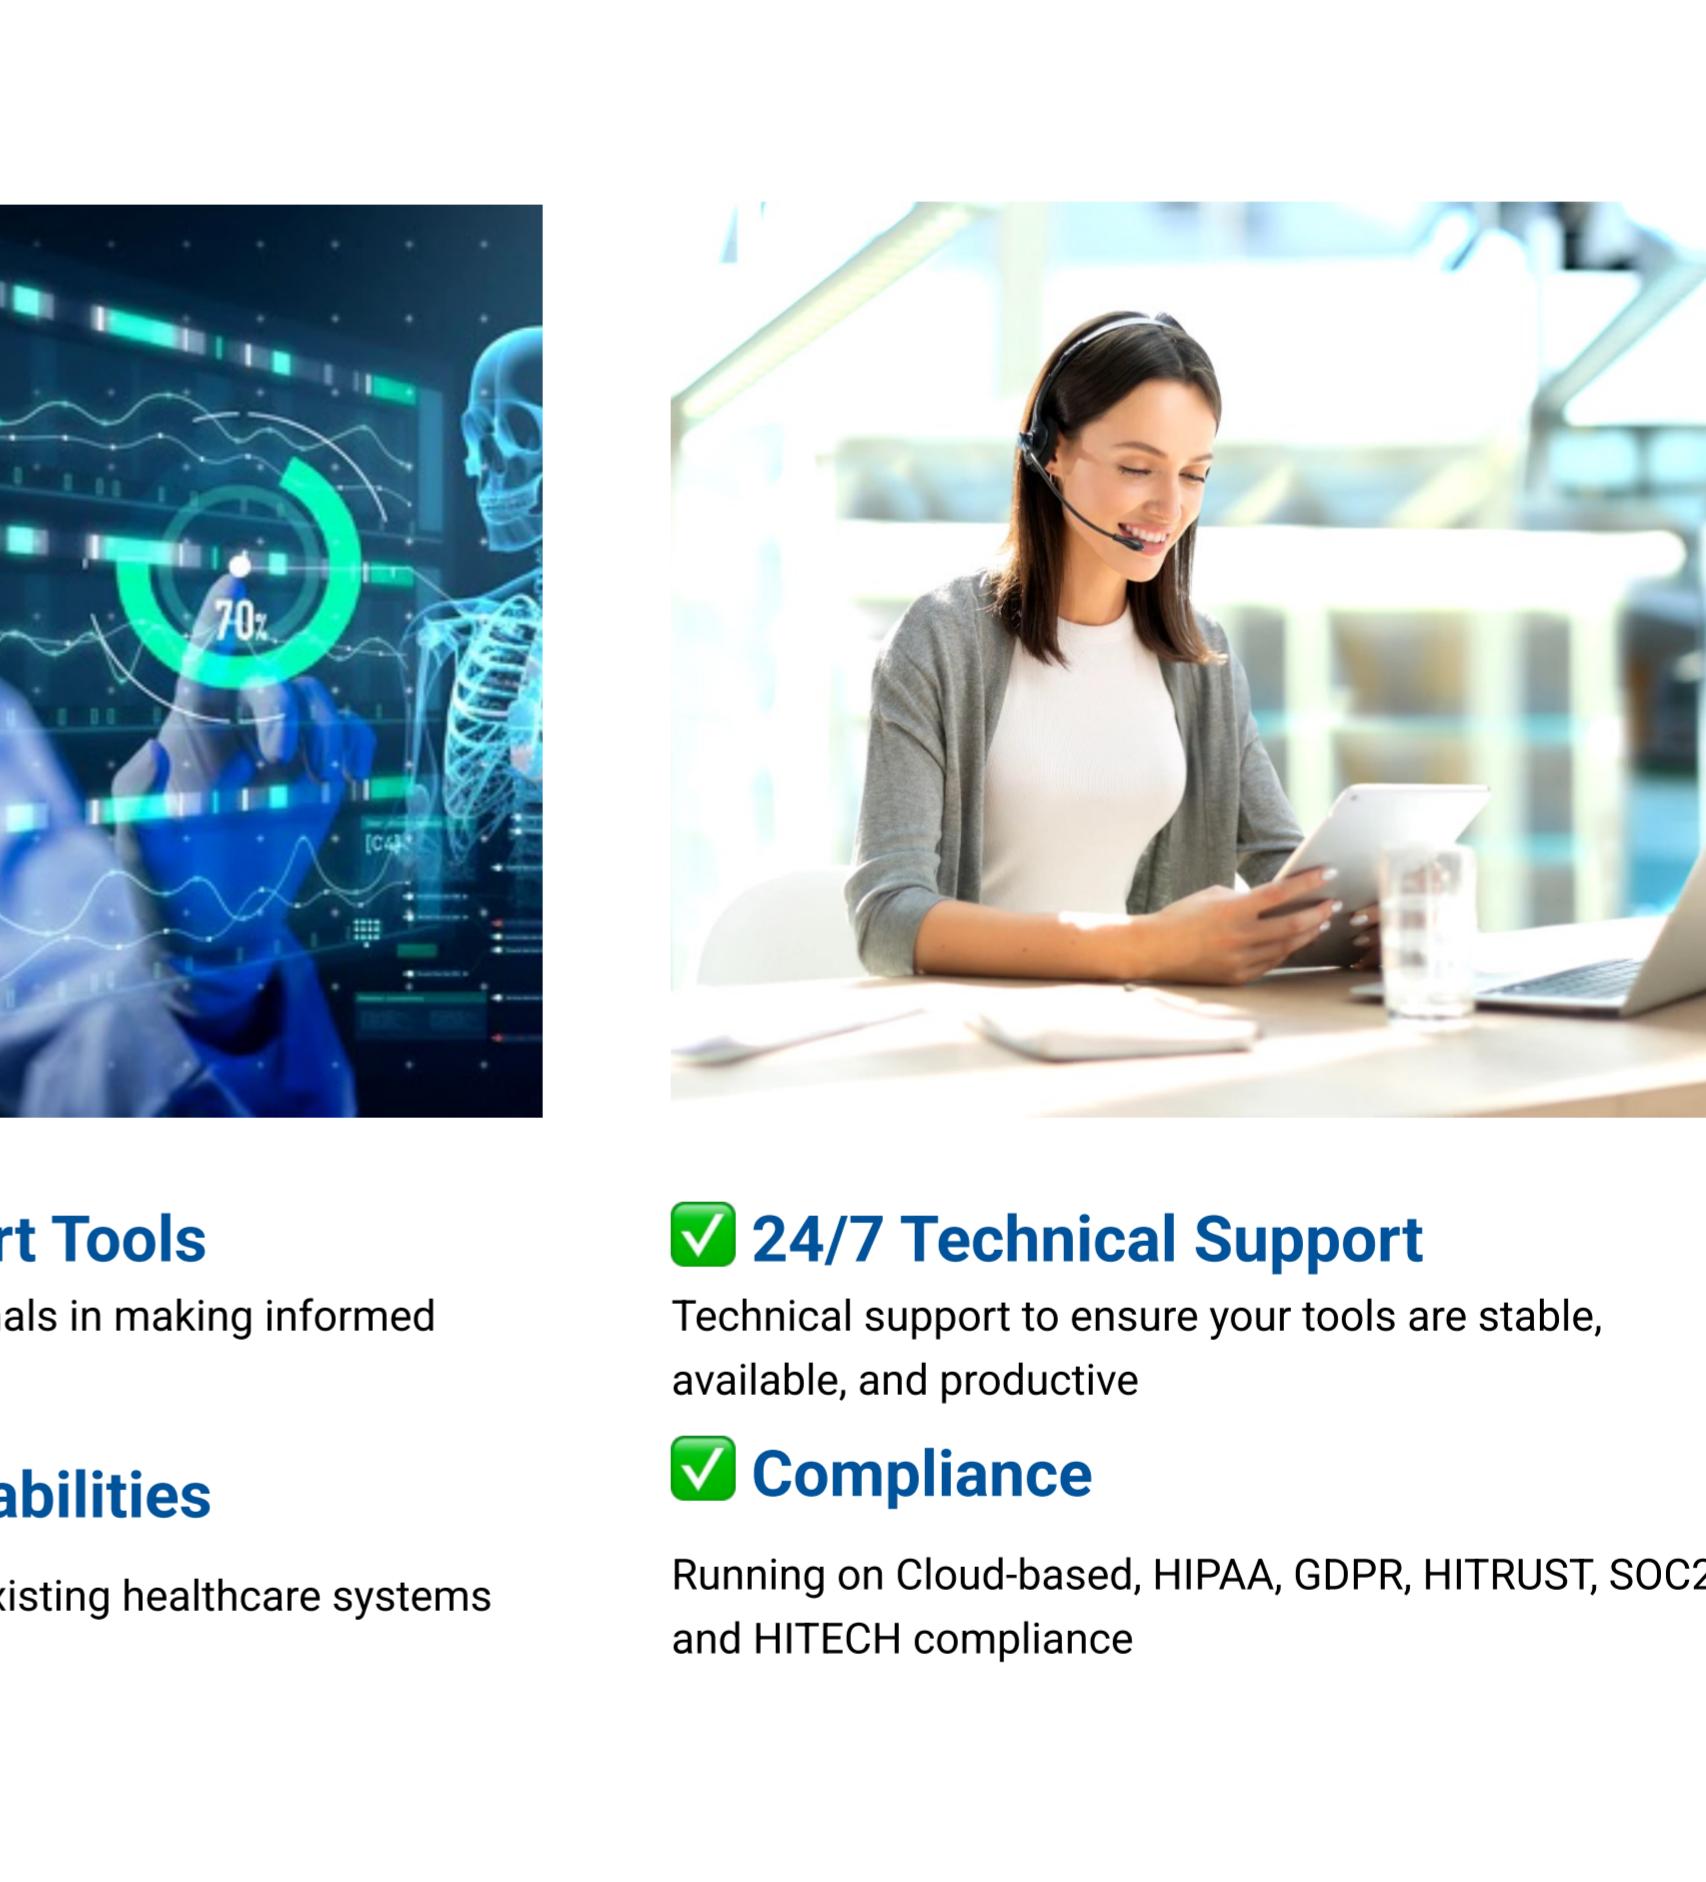

### Hospitals

Mediqal is transforming the healthcare experience by addressing the distinct challenges faced by hospitals. With Mediqal, hospitals can enhance efficiency by leveraging centralized data, increasing the number of patients served, and improving billing accuracy. By streamlining operations, Mediqal helps reduce errors, increase safety, and eliminate fraud, ensuring smoother and more reliable healthcare processes.

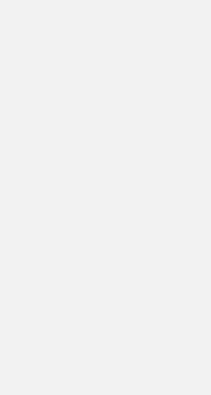

### Doctors

For doctors, Mediqal offers actionable AI insights that lead to higher-quality patient interactions, improved patient satisfaction, and increased loyalty. By reducing administrative tasks and allowing for more time with patients, Mediqal enables doctors to focus on delivering personalized care. Additionally, the solution improves work-life balance by optimizing workflows, giving doctors back valuable time.

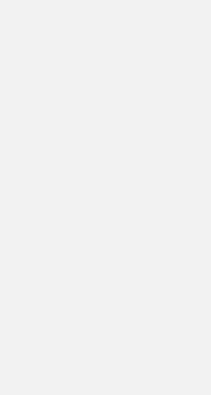

### Features

Explore Key Features of Mediqal

#### Core

Boosts productivity, reduces errors, and integrates with EMR systems using HL7/FHIR standards.

#### Patient 360

Collects continuous data from wearables for a comprehensive health overview.

#### RxGuard

Reviews medications to prevent dosage issues, interactions, and side effects, increasing safety.

#### GenerativeAI

Identifies risks and generates insights using encounter, tests, and Patient360 data.

#### AI Transcription

Converts speech to text in real-time for hands-free documentation.

#### AI Translate

Real-time translation into 100+ languages for seamless patient communication.

#### AI Billing

Automatically generates billing codes based on diagnoses, with trainable models.

#### Billing Guard

Prevents billing errors by comparing codes with diagnoses.

### Fraud Prevent

Uses AI facial recognition to prevent medical identity fraud.

### AR Tech

Employs AR glasses for hands-free interaction and patient care.

### EMR Integrations Worldwide

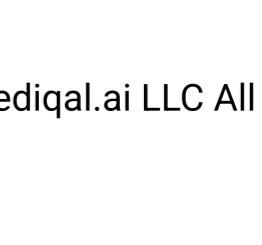

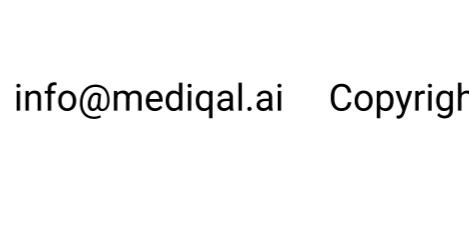

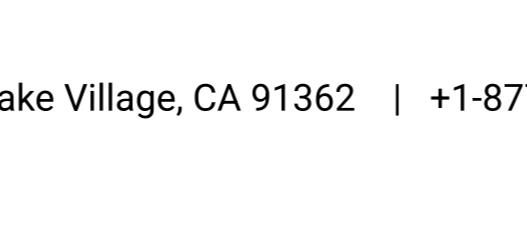

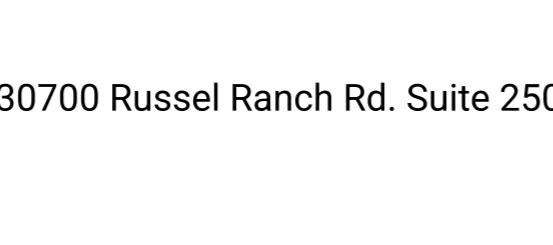

Seamlessly integrates with HL7 FHIR-compliant EMRs globally.

### Integrations & Systems Support

Mediqal serves as a trusted partner for the entire medical team, including physicians, PAs, and medical coders. Our mission is to significantly enhance and optimize every aspect of the physician-patient interaction by seamlessly integrating and augmenting domain knowledge throughout the entire care process.

### EMR System Integrations Supported

### Empowering Healthcare Professionals, Elevating Patient Care
